

Nuts and Bolts

Teamwork & leadership

Part I.

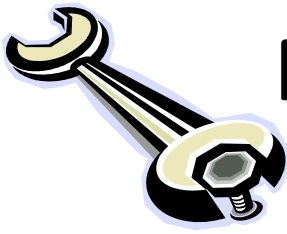

An effective EcoSchools program requires a great EcoTeam.

What are the characteristics of a great EcoTeam?

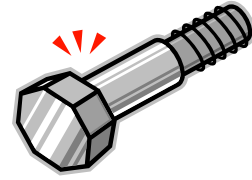

Part II.

Choose one or two characteristics

How do you develop these characteristics in your EcoTeam?

Nuts and Bolts

Energy Conservation

Effective energy conservation initiatives engage the whole school community and become part of the school's routine.

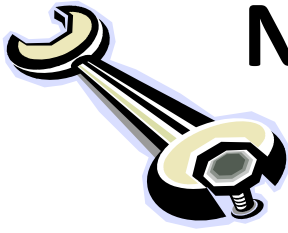

Part I:

Choose 1 or two of the following initiatives:

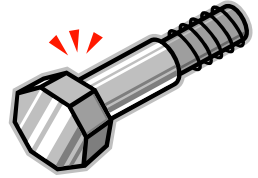

- Lights off
- Monitors off
- Curtains closed
- Vents are clear of obstructions

Part II

What are the elements that support the effective implementation of this initiative though out the school?

Nuts and Bolts

Waste Minimization

Effective waste minimization initiatives engage the whole school community and become part of the school's routine.

Part I:

Choose 1 or two of the following initiatives:

Reduce: reducing food related waste (composting, waste-free or boomerang lunch); setting up electronic communication/sibling list

Reuse: GOOS paper system

Recycle: paper/container recycling system

Inform: waste audit

Part II:

What are the elements that support the effective implementation of this initiative though out the school?
